COMPUTING

New on-screen computer magazine for VIC-20 users

Features and games for all memory sizes! Just LOAD and RUN to get more from your micro

ORIGINAL FAST-ACTION GAMES

Included in this issue:

- Help Morris the Micro-Chip find happiness in the computer of his choice.
- Grab the gold and get away... but watch out, there's a Lurker about!!!

PLUS

- RAMPAGE!! A fully featured word-processor – only in VICTAPE.
- Enter the micro-world of machine-code with our Assembler/Disassembler.
- PEEK & POKE explained in the Headscratchers Club.
- Keep losing your memory? Open the Toolbox and find out how to save it.

An Argus Press Software Publication

This tape contains a series of programs chained together to form the magazine.

It is loaded by pressing
SHIFT and RUN together.

Remove all RAM expansions before loading. If a program requires extra memory it will be indicated.

On screen prompts are given throughout the issue and these should be followed at all times to obtain the maximum benefit from this publication. Every article has its own filename and can be loaded separately if desired.
